

FIX ISN MAGNETIC FIXTURE FOR ISN T2A, ISN T4A, ISN T8, ISN T8-CAT6 OR CDN T8

The magnetic fixture for ISNs (Impedance Stabilization Network) improves the earth connection to steel surfaces as typical used for Faraday cages. Its design provides a constant and stable pressure of the ISN enclosure against the ground plane. The standard CISPR 22/ EN 55022 allows to place the ISNs also to a vertical ground plane which can be done easily with the use of FIX ISN.

FIX ISN

- Improvement of the ISN earth connection to steel surfaces
- Allows vertical positioning of the ISN (chamber wall)
- Easy positioning of the ISN in the setup
- Ruggedly designed

Technical specifications

Fixture for product range:	ISN T2A series, ISN T4A series, ISN T8, ISN T8-Cat6, CDN T8
Dimension (L x W x H):	125 mm x 150 mm x 55 mm
Weight:	approx. 300 g

FIX ISN with ISN on vertical plate (chamber wall)
